

Q1 2022 Trading and Operational Update

"In the first quarter 2022 we multiplied our sales by 12x in storage and 2x in e-mobility, bringing NHOA's consolidated revenues up to 6x those of Q1 2021.

The roll-out of EV fastcharging infrastructure continues, Atlante has more than 800 points of charge online and under construction, and a pipeline of close to 1,000 sites, including in France where the activity only started this January.

The amazing work of NHOA's team in the first months of 2022, coupled with the unparalleled support of TCC in managing the increasingly complex global scenario, let us forecast an even more exciting Q2 and set a clear path towards 2022 guidance" commented **Carliaberto Guglielminotti**, CEO of NHOA Group.

Paris, 11 April 2022 – NHOA (NHOA.PA, formerly Engie EPS) is pleased to release the unaudited Q1 2022 Trading and Operational Update containing the performance indicators as of 31 March 2022.

Q1 2022 TRADING AND OPERATIONAL UPDATE		Notes	Data in	FY 2021	Q1 2021	Q1 2022	Var% vs 31 Mar 2021	Var% vs 31 Dec 2021
 NHQA New horizons ahead.	Consolidated Sales ^[1]		€m	32,9	3,4	20,9	+515%	
	Consolidated Cash and Credit Lines available for withdrawal ^[2]	(1)	€m	151,0	8,7	160,7		+6%
BY GLOBAL BUSINESS LINE								
 STORAGE	Sales ^[1]		€m	15,9	1,3	15,5	+1.123%	
	Backlog ^[3]	(2)	€m	193		194		stable
	Contracts Secured	(3)	€m	56		56		stable
	12-month Order Intake	(4)	€m	208		222		+7%
	Online Capacity		MW	188		188		stable
	Projects Under Development	(5)	MWh	1.017	700	1.049		+3%
	of which signed turn-key supply contracts (Backlog)		MWh	725	50	757		+4%
	of which Contracts Secured		MWh	292	650	292		stable
	Pipeline	(6)	€m	764	1.004	772		+1%
	Projects in which NHOA is shortlisted		#	4		4		
e-MOBILITY								
 e-MOBILITY	Gross Sales including intercompany (Atlante) ^[1]	(7)	€m	17,3	2,1	7,2	+240%	
	Sales ^[1]	(8)	€m	17,1	2,1	5,2	+145%	
	PoC Conversion Rate:							
	• PoC / Stellantis Group EV Sales	(9)	# PoC	18%	N/A	17%		
	• Subscriptions / Total PoC	(10)	# PoC		N/A			
	• PoC outside Stellantis / Total PoC		# PoC	40%	0%	60%		
Manufacturing Capacity		# PoC	2.250 /week	500 /week	2.750 /week

	V2G Microgrid Capacity online and under construction		MW	31	N/A	31		
	EV based storage equivalent	(14)	MWh	26	N/A	26		
Pipeline of New Sites under assessment	(15)	#	835	N/A	968		+133	
of which under development	(16)	#	69	N/A	125		+56	

[1] Sales refers to Revenues & Other Income. Q1 2022 Sales refers to (unaudited) Revenues & Other Income as of 31 March 2022

[2] Including cash deposits and cash collateral to guarantee securities on projects in execution

[3] Figures published until 4 October 2021 also include e-Mobility Backlog. Starting from the release of Q3 2021 Trading and Operational Update, Backlog is communicated only for Global Business Line Storage

Notes to the Q1 2022 Trading and Operational Update

(1) Cash and Credit Lines available for withdrawal represents the cash available in the bank account of NHOA, including cash deposits, coupled with the credit facilities approved and not withdrawn and still available as of the relevant reporting date. A portion of the liquid assets serve as cash collateral to guarantee securities on projects in execution.

(2) Backlog means the estimated revenues and other income attributable to (i) purchase orders received, contracts signed and projects awarded (representing 100% of Backlog as of the date hereof), and (ii) Project Development contracts associated with a Power Purchase Agreement, where the agreed value is a price per kWh of electricity and an amount of MW to be installed (nil at the date hereof). When any contract or project has started its execution, the amount recognized as Backlog is computed as (A) the transaction price of the relevant purchase order, contract or project under (i) and (ii) above *less* (B) the amount of revenues recognized, as of the relevant reporting date, in accordance with IFRS 15 (representing the amount of transaction price allocated to the performance obligations carried out at the reporting date).

(3) Contracts Secured means projects awarded, for which the signature of the full sets of the agreements has not been yet completed. Typically, when NHOA is awarded with a tender, typically being project financing, there are several steps to be completed (i.e., the EPC Agreement, the Notice to Proceed, permission to be signed). "Contracts Secured" are no longer part of the "Pipeline" but are not yet part of the "Backlog". They will do so only once terms of documentation and planning permission are defined. Contracts Secured are almost entirely represented by the tender awarded in Guam to ENGIE, former majority shareholder of NHOA, with NHOA acting as exclusive technology supplier. NHOA still has limited visibility on the progress of the project development being carried out by ENGIE in Guam. In particular, on how the project development might be impacted (i) by commodity price increases, namely solar PV modules, structures and cables pricing that could affect the original budget assumptions for the overall solar-plus-storage projects and (ii) the widespread disruption in global supply chains, that gives reasonable ground to doubt of the development timeline originally planned by ENGIE for such projects. Even though ENGIE had committed to continuing the development of Guam project, there is no guarantee that it will not decide to abandon the project.

(4) 12-month order intake represents the cumulated value of new purchase orders received, contracts signed and projects awarded in the 12 months preceding the relevant reporting date.

(5) Projects Under Development is an indicator representing the capacity equivalent of (i) Backlog, in terms of signed turnkey supply or EPC contracts and therefore excluding Project Development contracts associated with a Power Purchase Agreement, (please see Note (2) above), and (ii) Secured Contracts, represented almost entirely by the tender awarded in Guam to ENGIE, the former majority shareholder of NHOA, with NHOA acting as exclusive technology supplier.

(6) Pipeline means the estimate, as of the release date, of the amount of potential projects, tenders and requests for proposal for which NHOA has decided to participate or respond. On a quarterly basis NHOA will disclose in its Trading & Operational Updates the number of projects in which NHOA is officially shortlisted.

(7) Gross Sales including Intercompany (Atlante) refers to revenues recognized by the Global Business Line e-Mobility under Italian GAAP, including intercompany business transaction with Atlante, that are not included in group revenues on a consolidated basis.

(8) Please note that Backlog & Order Intake are not monitored by NHOA at the Global Business Line e-Mobility level, given the strong correlation between sales of charging devices (Points of Charge - "PoC") and EV sales, which are monitored through the Conversion Rate performance indicator. Please further note that "Sales" refers to the revenues generated by the Global Business Line e-Mobility both with NHOA from January 2021 to April 2021 and Free2move eSolutions from May 2021, when the Joint Venture became operational.

(9) Q1 2022 PoC Conversion Rate is impacted by the availability of main electronic components of the eProWallbox suite.

(10) Total PoC refers to the number of PoC sold in the period by Free2move eSolutions. Please note that Free2move eSolutions launched the first Subscriptions pilot in Q3 2021 and testing phase in Q4. Considering the current market conditions of the energy sector and energy price volatility, commercialization has been postponed to H2 2022.

(11) Sales are Not Applicable for this Trading and Operational Update, as no material sales figures are expected during the launch phase of Atlante (i.e. throughout 2022).

(12) Utilization Rate is calculated, over the reference period, as the aggregate utilization time of all PoC divided by the aggregate time of availability of the same PoC, expressed as a percentage. Utilization Rate is Not Applicable for this Trading and Operational Update, and first Utilization Rate data will be disclosed when a materiality threshold of n.10 different sites is achieved.

(13) During the first quarter of 2022 Atlante experienced delays in delivery of hardware which resulted in delayed opening of certain sites. As of 31 March 2022, there were 8 sites online: the Vehicle-to-Grid e-Mobility Hub of NHOA and Free2move eSolutions at the Stellantis logistics hub in Turin, 6 stations in Piedmont and 1 in Lazio. The residual 25 sites - located in Liguria, Lombardy, Piedmont, Friuli Venezia Giulia, Veneto and Tuscany - are defined under construction from the moment the connection request is officially issued to the relevant distributor.

(14) Please note that the data in MWh represents the EV based storage equivalent, i.e. the maximum battery capacity of Vehicle-to-Grid services that can be delivered by the Atlante Network at the relevant reporting date. This data excludes the portion of stationary storage coupled with fastcharging technology in any Atlante charging station or e-Mobility Hub, as the respective capacity is already included in the Online Capacity or in the Projects Under Development of NHOA Energy.

(15) Pipeline of New Sites under assessment includes the total number of sites, as of the relevant reporting date, which are actively pursued after prospecting activity and following a first internal screening for high level feasibility. At this point, the full contractual documentation remains to be finalized and signed, all the required permits have not yet been awarded and construction has not started.

(16) of which under development, being a sub-category of "Pipeline of New Sites under assessment", includes sites for which a more detailed feasibility activity commences, including detailed discussions with site owners and exchange of documentation. For the sites included in the "under development" sub-category there would be a reasonable degree of confidence that they can be converted into fastcharging stations within the next six months (subject to interconnection and timely delivery of hardware).

NHOA

NHOA S.A. (formerly Engie EPS), global player in energy storage and e-mobility, active in the construction of the largest fast and ultra-fast charging infrastructure in Southern Europe, develops technologies enabling the transition towards clean energy and sustainable mobility, shaping the future of a next generation living in harmony with our planet.

Listed on Euronext Paris regulated market (NHOA.PA), NHOA forms part of the CAC® Mid & Small and CAC® All-Tradable financial indices.

NHOA, with offices in France, Spain, United States and Australia, maintains entirely in Italy research, development and production of its technologies.

Forward looking statement

This release may contain forward-looking statements. These statements are not undertakings as to the future performance of NHOA. Although NHOA considers that such statements are based on reasonable expectations and assumptions at the date of publication of this release, they are by their nature subject to risks and uncertainties which could cause actual performance to differ from those indicated or implied in such statements. These risks and uncertainties include without limitation those explained or identified in the public documents filed by NHOA with the French Financial Markets Authority (AMF), including those listed in the "Risk Factors" section of the NHOA 2021 Universal Registration Document filed with the AMF on 6 April 2022 (under number D. 22-0251). Investors and NHOA shareholders should note that if some or all of these risks are realized they may have a significant unfavorable impact on NHOA.

These forward looking statements can be identified by the use of forward looking terminology, including the verbs or terms "anticipates", "believes", "estimates", "expects", "intends", "may", "plans", "build-up", "under discussion" or "potential customer", "should" or "will", "projects", "backlog" or "pipeline" or, in each case, their negative or other variations or comparable terminology, or by discussions of strategy, plans, objectives, goals, future events or intentions. These forward-looking statements include all matters that are not historical facts and that are to different degrees, uncertain, such as statements about the impacts of the Covid19 pandemic on NHOA's business operations, financial results and financial position and on the world economy. They appear throughout this announcement and include, but are not limited to, statements regarding NHOA's intentions, beliefs or

current expectations concerning, among other things, NHOA's results of business development, operations, financial position, prospects, financing strategies, expectations for product design and development, regulatory applications and approvals, reimbursement arrangements, costs of sales and market penetration. Important factors that could affect performance and cause results to differ materially from management's expectations or could affect NHOA's ability to achieve its strategic goals, include the uncertainties relating to the impact of Covid-19 on NHOA's business, operations and employees. In addition, even if the NHOA's results of operations, financial position and growth, and the development of the markets and the industry in which NHOA operates, are consistent with the forward-looking statements contained in this announcement, those results or developments may not be indicative of results or developments in subsequent periods. The forward-looking statements herein speak only at the date of this announcement. NHOA does not have the obligation and undertakes no obligation to update or revise any of the forward-looking statements.
